PROFESSIONAL SUMMARY

Web Developer with experience in full-stack development, specializing in TypeScript, React.js and Node.js. Proficient in working with relational and document databases like MySQL, PostgreSQL and MongoDB. Passionate about user experience and interface design, with hands-on expertise in design tools like Axure RP, Figma, and Adobe XD. Successfully contributed to fintech solutions, leveraging both frontend and backend technologies to build scalable and user-friendly applications. Eager to collaborate on innovative projects and continuously expand technical expertise.

SKILLS

HTML & HTMX   CSS & SCSS   JavaScript & TypeScript   React.js (JavaScirpt Framework)

Node.js (JavaScript Runtime)   Python   Git & GitHub   UI & UX design principles

Database management (MySQL, PostgreSQL, MongoDB)

EXPERIENCE

FULL STACK WEB DEVELOPER, Accra, Greater Accra

Union Systems Global GH. Ltd, October 2023–September 2024

- Developed and maintained design systems and reusable UI components for web applications using Figma.
- Translated UI/UX designs into responsive and interactive web interfaces using React.js.
- Built and maintained backend services and application logic using Node.js.
- Designed and implemented RESTful APIs using Express.js to support web applications.
- Managed version control, tracked code changes, and collaborated with teams using Git.
